Contact
- saivardhan.r.abbady@accenture.com
- 8179484999

Skills
- **SAP BTP Integration Suite**

Developed Interfaces:
- Material Master Valuation Data Interface from SAP ECC to S4HANA: Captured the XML payload from ECC and mapped it to the target system(S/4HANA), incorporating the necessary logics before transmitting it to S/4HANA .

- Extract Prepaid and Freight Charges from SAP ECC to S4HANA: where ECC triggers the payload to a standalone Event Mesh, captured the payload from Event Mesh and mapped it to the target system, incorporating the necessary logics before transmitting it to S/4HANA.

Worked on
- SOAP adaptor
- HTTPS adaptor
- AMQP adaptor
- JMS adaptor

- Aware of Idoc and Odata adaptors
- Worked on building logics using standard functions in message mapping
- Creating dispatchers and value maps
- Configuring retries using JMS Adaptors
- Having the basic knowledge on using the node functions

- Proficient in Java programming
- Having the knowledge on creating API's in SAP integration suite by using the policies
- Having the basic knowledge of groovy script
